Item Code: 09162

1 x INDEX-ROTATION
LOCKING PIN

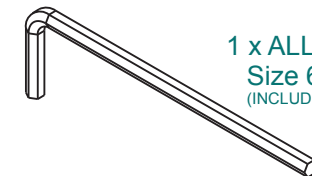

Item Code: 19163

4 x M10 x M20
FLAT HEAD
SPIGOT BOLTS

Item Code: 14039

1 x ALLEN KEY
Size 6mm (ZY)
(INCLUDED)

Item Code: 13996

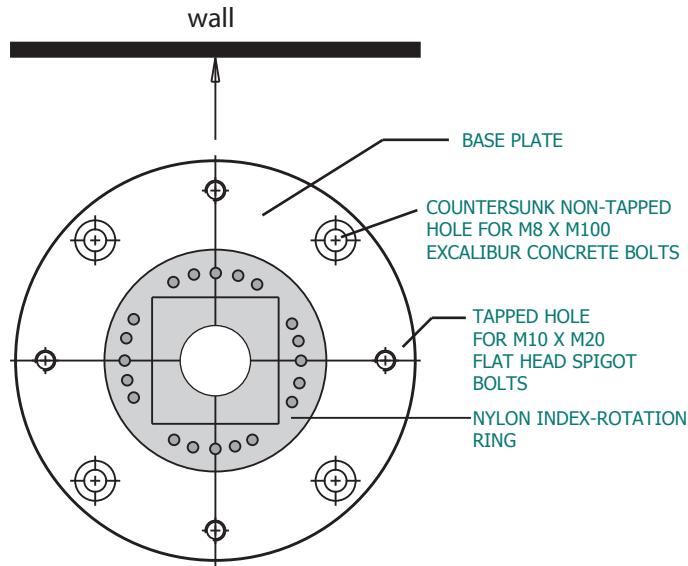

STEP 1

PROPER ALIGNMENT OF THE PICOLLO

TO ENSURE CORRECT POSITIONING OF THE PICOLLO CANOPY, IT IS IMPERATIVE THE BASE PLATE IS PROPERLY ALIGNED.

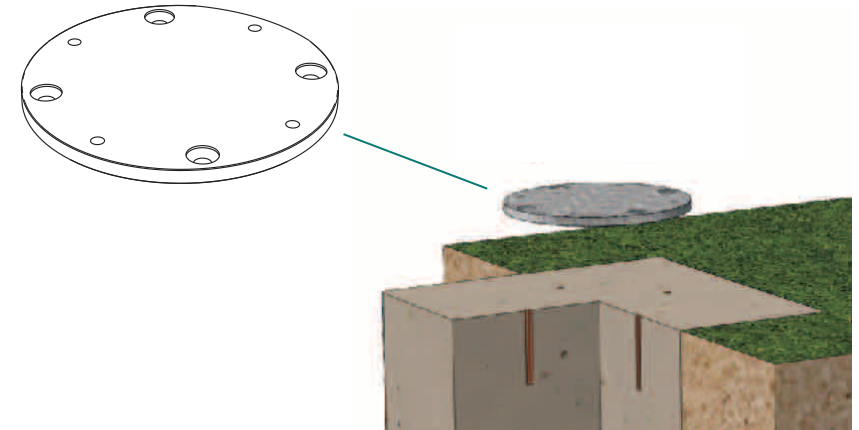

1. THE BASE PLATE HAS FOUR COUNTERSUNK HOLES AND FOUR TAPPED HOLES. TWO HOLES OF EITHER SET MUST BE LINED UP SQUARE TO WHATEVER YOU ARE ALIGNING YOUR PICOLLO WITH. FOR EXAMPLE, TWO OF THE FOUR COUNTERSUNK HOLES MUST BE ALIGNED WITH THE SIDE OF YOUR HOUSE, EDGE OF YOUR PATIO, ETC., AS SHOWN IN THE DIAGRAM AT RIGHT.

BY FOLLOWING THESE INSTRUCTIONS, THE HOLES FOR THE INDEX-ROTATION LOCKING PIN WILL ALLOW FOR THE DESIRED ALIGNMENT OF THE PICOLLO.

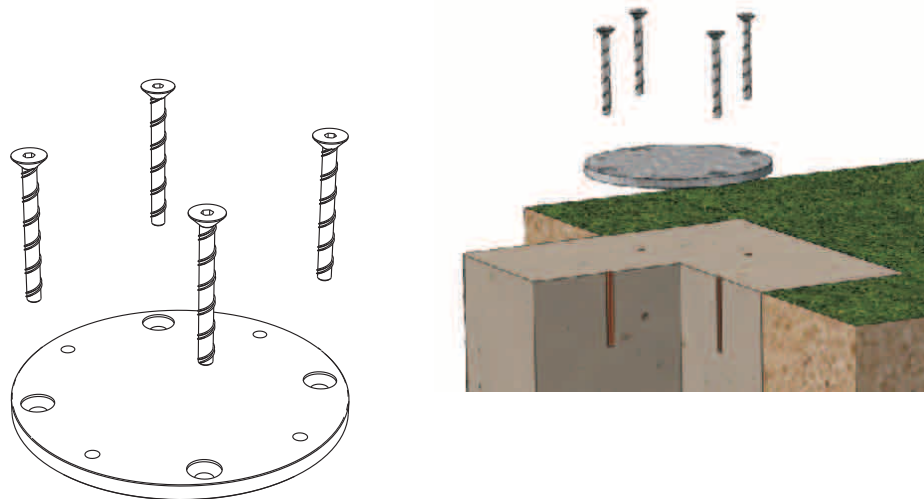

STEP 2

AFTER ALIGNING THE BASE PLATE, DRILL FOUR HOLES FOR THE M8 X M100 EXCALIBUR CONCRETE BOLTS.

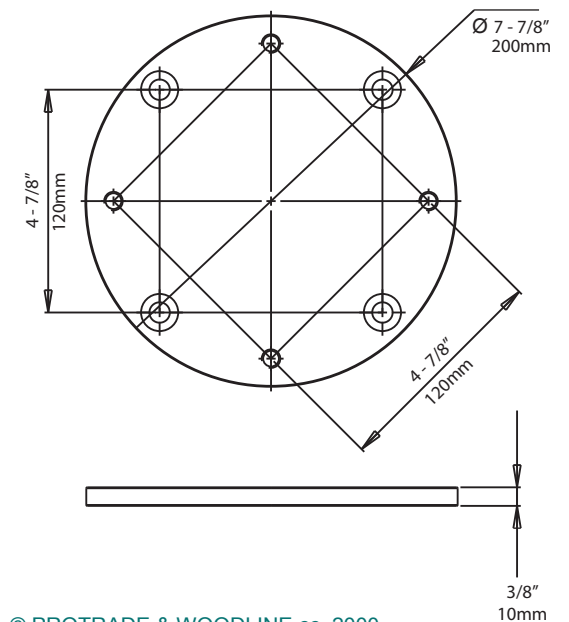

STEP 3

ATTACH THE BASE PLATE TO EXISTING CONCRETE WITH THE FOUR M8 X M100 EXCALIBUR CONCRETE BOLTS.

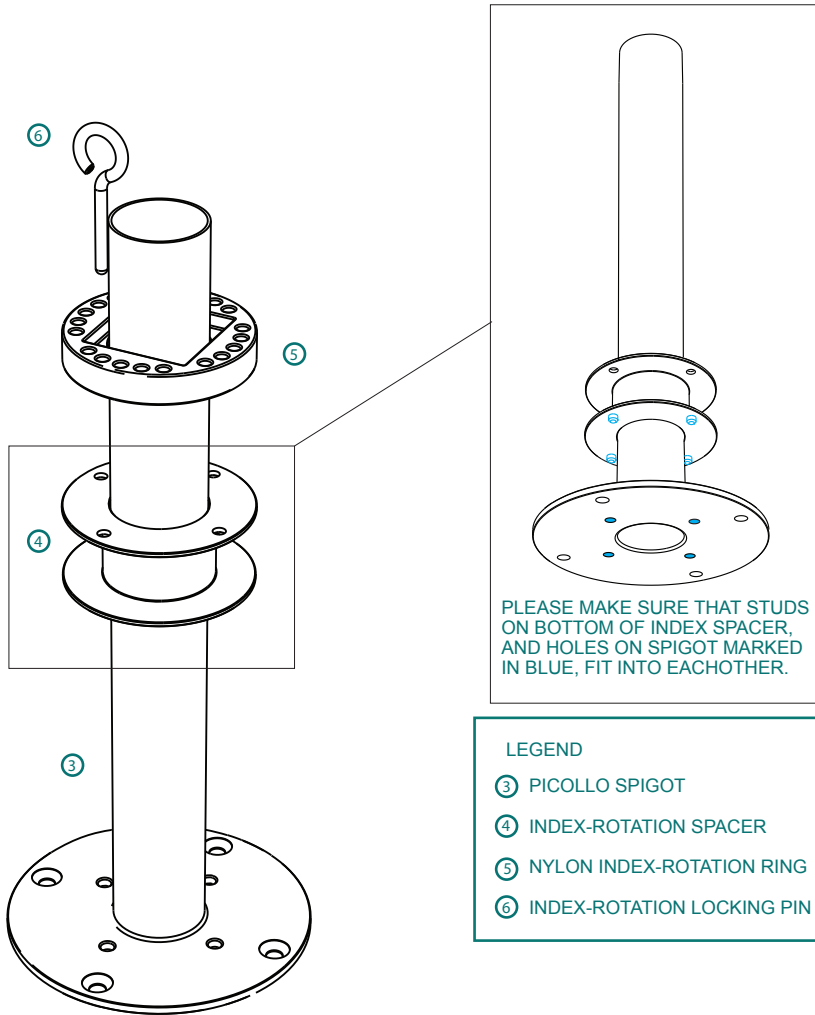

BASE PLATE DIMENSIONS

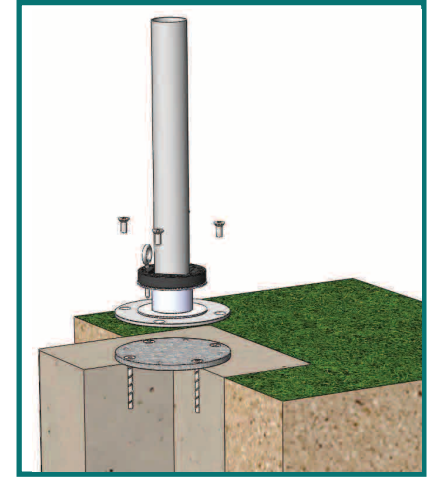

STEP 4

ASSEMBLE PICOLLO SPIGOT AS SHOWN BELOW.

STEP 5

ATTACH THE ASSEMBLED PICOLLO SPIGOT TO THE BASE PLATE WITH THE FOUR M10 X M20 FLAT HEAD SPIGOT BOLTS.

STEP 6

INSTALL THE PICOLLO ONTO THE SPIGOT. SEE SEPARATE INSTRUCTIONS FOR PICOLLO ASSEMBLY INCLUDED IN THE PICOLLO BOXES.
